Erasmus+ Programme
of the European Union

Accompanying mobilities towards skill upgrading for adults involved in cultural and creative activities

Accredited consortium (KA01 Adults Erasmus+)

CONTEXT

Our territories **resonate** with their own artistic and cultural propositions, especially the Basque Country, armed with its people suffused with **associative commitment** and collective way of life. This **fertile** ground allows cultural actors to invent daily the ordinary; from stories to **learning**, from **friendliness** to intangible **heritage**, here, everything invites to take part to the artistic **abundance!**

Nevertheless, the **internationalisation** of these initiatives is not well enough structured. Quality and **efficient** guidance exists but has been relatively inaccessible for the humblest initiatives, because of the **approach** complexity itself.

OBJECTIVES

- Develop an **excellent mentoring** for cultural & creative **entrepreneurs**
- Stimulate adult participation to consortium organisations governances

Based particularly on the new **Erasmus+** programme, Combustible offers a guidance plan towards cultural and creative initiatives' **internationalisation** in its territories of action. This plan is built on two **approaches**, one towards the culture professionals, regardless of their **experience** or **influence**, with a focus on people facing the most precarious situations and the least experienced.

CONSORTIUM

Combustible is accredited to manage support funds to adult **upskilling** mobilities from the social and **solidarity-based** economy, on the 2022-2027 phase. This accreditation has been applied for a **consortium** from which the **Institut culturel basque** (64), **Atabal** (64) and **Taf Gang** (40) are the **members**.

OUTCOMES

We intend to create **accessible** information and guidance processes, as **inclusive** as possible. The **challenges** are many, and it is obvious for us that we'll be able to **reach** our common goals being together: going to **otherness** to broaden our practices and cultures, discover **innovative** good practices to face environmental and societal challenges, **strengthen** our staff and learner skills and contribute more globally to their **fulfilment** in the framework of our governance and **above**.
